

# THE OFFER

This brochure is made to show the books that are for sale manually. For online sales or buying my books in a physical store, just visit the site from which you would like to purchase your item or enter the nearest bookstore.

The reason why I offer this service, is that the costs for the buyer are lower and the seller gets a fairer price for the sale of the product. I can also offer discount prices when purchasing bigger batches or multiple books at once. On the contrary, it can be easier or more convenient for the customer to buy the goods from an online store, or straight from a shop. Neither one of both is better than the other, but it's nice to offer various ways to buy my goods.

If you want your piece(s) to be signed, just send an e-mail and I will be happy, humbled & honored to provide you with a personal scribble.

# THE PRINTING

Because we live in a changing world, where we all carry a little responsibility to take care of the environment, I have chosen to use POD (Print on Demand) for the printing of my books. This means my ecological footprint is minimal, and my work is only printed when there is an actual purchase deal. This way I save space, and there is no paper waste due to an overbought stack of books. Furthermore, it is less prone to waste on the occurrence of a printing error.

Depending on the kind of book you order, delivery times can vary. At the end of the brochure, I have provided a list with the details and specifics of the various delivery time details.

Postage costs are always on the expense of the buyer.

## SWIPNEUS

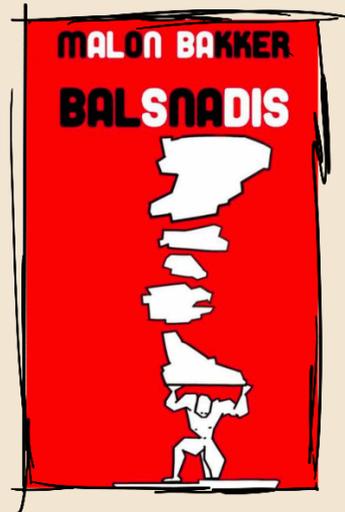

ISBN: 9789402177022

# E - BOOKS

E-books can be purchased at all time through the "Books" section on my website. When the purchase is completed, you will be provided a unique password to download the item, which can only be used once.

Because downloading takes hardly any time, you can enjoy your new product right away. There are no delivery costs and you are the owner of a new piece quick and easy.

Side note is, that providing downloads is a vulnerable position for the provider, and comes from a place of trust. In return, I expect this to be handled with respect, which means I rely on your willingness as a human being to not duplicate the downloaded item, use it in ways other than your own personal use nor hand it out to or share these works with others. This is in no case allowed.

I take this risk, because I want to make my work accessible for the majority of people, but there is always a risk involved and I ask Kindly to be careful and responsible when handling the faith I put in you as a customer.

Thank you.

Broeden op bevroren eieren: 7 days

De uitgang is boven: 7 days

Wat te doen dan doen alsof: 7 days

## HAND-BOUNDS

can be provided, but be aware that these take a longer time (about a month) to manufacture.

Also, the costs can vary. This is why, with orders like this, I am personally involved.

Please reach out for more information and I will be in touch.

Last to state is that all my works can be manufactured in various shapes and outlays, so if there are any personal desires according to the outlook, just be brave and send me an e-mail to discuss the possibilities.

Thank you
